KIOSK ORDERING

Increase Sales & Customer Satisfaction With An Interactive Self-Service Experience

Appsuite takes your online ordering to the next level of customer service, enabling your business to provide a unified, secure, interactive ordering experience for guests with an in-store kiosk that works like the mobile app they've come to rely on. Orders flow seamlessly to the kitchen more quickly and with greater accuracy in high traffic environments. It's a touchscreen solution offering complete payment and wireless printing capabilities.
