# Loyalty Manager App *FOR iOS*

## INCLUDES PART 2726128

The Appsuite Loyalty Manager iOS app has been designed for restaurant/hotel staff to administer many Appsuite core functions such as gift cards, rewards, ordering and customer management. The Loyalty Manager app is role-based, allowing managers to provide specific access to only the data and/or functions required for each team member. The app can act as a stand-alone rewards and gift card terminal or as (most often) a complementary component to Appsuite's POS integrated CRM program. It is a recommended addition to support optimized functionality for online ordering in environments without POS integration and is a convenient addition to POS integrated ordering setups.

### KEY FEATURES

- **Gift Card** - Activate/deactivate, reload and add/deduct value.
- **Rewards** - Log purchases, add points, redeem rewards/offers, add/remove loyalty card(s) and link gift cards to users.
- **Ordering** - View/cancel/print orders, change order status, customer direct messaging, refund credit card and view history.
- **Customer Management** - Search for member, scan search for member, swipe search for member and add/edit/delete customer account. Link loyalty card, link gift card, view history, view surveys and create/view notes.
- **Printing** - Print member history, gift card history/transactions and takeout/delivery orders with Star Micronics printers. See Appsuite Software Product Datasheet: Ordering Part 2837145.

### TECHNICAL & OTHER CONSIDERATIONS

- Requires an internet connection via WiFi and/or cellular.
- Appsuite has integrated the Loyalty Manager app with stands, readers and scanners using devices from Infinite Peripherals, the leader in commercial grade peripherals for Apple iOS devices. See Appsuite Hardware Product Datasheet: Loyalty Manager Kits & Peripherals for individual components and packages.
- See Appsuite Software Product Datasheet: Technical Specifications for iOS requirements and supported peripherals.
